PROFESSIONAL SUMMARY

Detail-oriented Software Engineering student with strong English communication skills and a growing interest in Artificial Intelligence, particularly in voice technology and human-AI interaction. Experienced in collaborative software development, problem-solving, and using digital tools in academic projects. Known for clarity in communication, active listening, and ability to follow precise instructions. Seeking opportunities in AI voice evaluation, data annotation, and remote AI training roles

KEY SKILLS

1. English Communication (Written & Spoken)
2. Active Listening & Audio Attention to Detail
3. Pronunciation Awareness
4. Voice Evaluation & Quality Checking
5. Structured Feedback Delivery
6. Remote Collaboration Tools
7. Git & GitHub Version Control
8. Software Development Fundamentals
9. Problem Solving & Debugging
10. Fast learning and Adaptability
11. AI Tools Awareness
12. Time Management and Task Organization

EDUCATION

Moringa School — Nairobi, Kenya

Course: Software Engineering (In Progress)

Expected Graduation: 2026

Relevant Areas:

1. Software Development Fundamentals
2. Communication in Technical Projects
3. Human–Computer Interaction (if covered)
4. Team-Based Projects
5. Problem Solving & Debugging
6. Programming Fundamentals
7. Web Development
8. Database Systems

PROJECT EXPERIENCE

- Michuki Hostel Management Information System
- Academic Software Engineering Project
- Contributed to the design and development of a hostel management system as part of a team project.
- Applied software engineering principles in planning, development, and testing phases.
- Used Git and GitHub for version control and collaborative development workflows.
- Participated in debugging and improving system functionality based on team feedback.
- Strengthened problem-solving and technical communication skills through structured collaboration

EXPERIENCE

1. Academic & Team-Based Projects
2. Remote & Collaborative Environments
3. Participated in group academic and technical projects.
4. Demonstrated communication, coordination, and responsibility in team tasks.
5. Reviewed and improved project components with attention to accuracy.
6. Adapted quickly to online collaboration tools and workflows.
7. Communicated progress updates and coordinated tasks effectively in team settings.

ADDITIONAL INFORMATION

1. Fluent in English
2. Strong verbal communication skills
3. Comfortable working remotely
4. Quick learner and adaptable to new technologies
5. Strong interest in Artificial Intelligence and voice technology
6. Available for part-time remote work
